

IUG Resolutions

IUG

Resolution 1-1: IUG recommends IC to extend user group membership to achieve a global view to strengthen IUG's capacity to act as a *strategic advisor* to IC.

Voted:

Resolution 1-2: IUG requests IC to address the *certification of processes* used today - BIM for a specific purpose - as a crucial validation layer.

Voted:

Resolution 1-3: IUG recommends IC ensure the *creation of IDMs shall be a priority*.

Voted:

Resolution 1-4: IUG recommends IC to expand IFD & IFC to cover more widely the built environment.

Voted:

Resolution 1-5: IUG requests IC to invite Chapters to nominate a *voting UG representative*. Chapter UG representatives shall be from the real user community (stakeholders etc rather than elected officials from Chapter); shall be as inclusive as possible, motivated, representing many area such as Fabricators, regulators etc; and from both horizontal and vertical organisational types. A suggested *UG organisational model*: city/regional based, domain based, chairs form a national UG, who decide an IUG representative

Voted:

Resolution 1-6: IUG recommends IC to undertake the development of *User Guides* (ENG initially) to inform users of technical and organisational aspects of the deployment of IFC based tools.

Voted:

Resolution 1-7: IUG recommends IC to raise awareness of the *IUG and Chapter User Groups*

Voted:

Resolution 1-8: IUG recommends IC request ExCom to update the *IUG Charter document* with changes from this meeting; distribute immediately to all Chapters, request their reviews by 30 Jan 2010, analyse comments and present a final document for adoption at the Korea Summit April 2010.
